

Everyone gets sick sometimes

If someone is sick they have a germ.  
Germs can make us sick.

If germs stick to me,  
I can get a cold or the flu.

If I get sick, I will get better.  
My family will take care of me.

I can help stop the germs from  
making me sick.

I can wash my hands while I sing the "Happy Birthday" song 2 times. Let's try it!

If I sneeze or cough, I will cover my mouth with a tissue or my elbow. After that I will wash my hands. Let's try it.

Right now, we are staying home. We don't want germs.

Sometimes I feel scared. It's OK to feel scared. I tell my parents. They help me feel safe.

I miss my friends. I will go back to school when all the germs are gone. Now I can have fun at home with my family.

This is what we can do at home.
